About

I’m a Swiss American Creative Developer & Designer from Colorado, currently based between the Netherlands and the USA. With a background in graphic design, production, and engineering, I enjoy working across different types of interactive media. Whether it’s building websites or capturing moments through photography, I love blending creativity and tech to tell stories and bring ideas to life.

Title

Creative Frontend Developer & Digital Designer
Rotterdam, The Netherlands

Fontend Engineer Intern
New York City, New York, USA

Freelance Designer & Photographer

Production Intern
Boulder, Colorado, USA

Experience

Oto9 Creative Agency **2024 - 2026**

Develop and maintain frontend solutions for diverse clients, collaborating closely with UX/UI designers, graphic designers, and project managers in a fast-paced agency environment.

Work extensively with ExpressionEngine CMS and recently transition to modern frameworks like Storyblok, Next.js/React, and TypeScript, building custom templates and components while ensuring seamless integration between design and development.

Manage multiple projects simultaneously, adapting to various brand styles, technical constraints, and client requirements.

Rockstar Games NYC **2023**

Worked closely with the Digital Design team, core Marketing team, and Art team to create timelines and expectations for projects.

Collaborated with UI/UX Design and Digital Production Interns on the Digital Marketing team.

Presented research, analysis, and development to the Marketing team and Directors for redesign of a Rockstar web product.

Worked daily with senior engineers to develop responsive components in React.

Contesse Studios **2019 - present**

Design and develop custom websites using Framer, creating visually engaging and high-performance digital experiences tailored to client needs.

Provide end-to-end creative services, including UX/UI design, branding, and photography, to enhance digital and social media presence.

Manage multiple freelance projects, balancing design, development, and content creation while adapting to diverse industries and client goals.

Boulder Media House **2021**

Worked with studio shooting, product shooting, handling and editing digital assets, graphic design, and website redesign

Worked in photography, videography, UI/UX, and graphic design
